# ADIT HARDIANSYAH SURACHMAN

**IT Systems Specialist & Technical Operations • Software, Infrastructure & Industrial Machinery**

West Bandung, West Java | (+62) 856-5983-2513 | adithardiansyah091@gmail.com | portfolio-adit.web.id | linkedin.com/in/adit-hardiansyah | github.com/Wilhelm-art

## PROFESSIONAL SUMMARY

Dual-discipline **Information Technology & Technical Operations Specialist** holding a Bachelor of Computer Science in Informatics Engineering (**GPA 3.62/4.00**), Google Cybersecurity Certification, and an accredited vocational foundation in Machining Engineering (Official UKK Certificate). Combines hands-on software systems engineering, relational database administration, reporting workflow automation, and IT infrastructure troubleshooting with the rigorous operational discipline required for precision industrial machinery and high-pressure steam boiler utility systems. Demonstrated track record of **reducing administrative reporting turnaround time by 40%** through end-to-end data digitalization, while upholding strict compliance with industrial SOP and occupational safety standards (OHS/K3) backed by a **100% Zero Accident record**.

## WORK EXPERIENCE

**IT Systems & Administration Specialist** — **Oct 2024 – Jan 2025**
*Department of Trade and Industry, Bandung City* — *Bandung, West Java*

- **Engineered a web-based municipal budget data recapitulation system (PHP & MySQL)**, automating manual cross-divisional ledger calculations and **accelerating financial reporting turnaround time by 40%**.
- **Eliminated human error risks in budgetary records prior to official municipal BPK/Inspectorate audits** through automated input validation rules and centralized relational database reconciliation.
- **Provided daily Tier-1/2 IT Helpdesk support**: resolved hardware/software incidents across staff workstations, configured local area networks (LAN), and **maintained 99%+ operational workstation availability**.

**Lead Full-Stack Developer (Capstone Project)** — **Mar 2025 – Aug 2025**
*DKM AT-Tijaniyah Mosque* — *West Bandung, West Java*

- **Architected and deployed a full-stack web cash management system (Laravel 10, Tailwind CSS, MySQL)**, transforming 100% of manual physical bookkeeping into an accountable, transparent digital platform.
- **Implemented a cash-basis accounting ledger engine** featuring automated monthly and annual financial balance statements alongside scheduled database backup and disaster recovery protocols.

**Boiler & Utilities System Operator** — **Jun 2023 – Aug 2023**
*PT. Lestari Makaroni* — *West Bandung, West Java*

- **Operated and regulated industrial steam boiler utility systems continuously**, guaranteeing stable, uninterrupted high-pressure thermal steam delivery across all commercial food manufacturing lines.
- **Conducted hourly instrument telemetry monitoring** on steam pressure gauges, water column levels, and burner combustion temperatures to proactively prevent overpressure explosion hazards.
- **Executed scheduled preventive maintenance protocols**: performed routine sediment blowdowns, burner cleanings, and safety valve inspections with a **100% Zero Accident safety record**.

**Production & Machining Operator** — **Aug 2020 – Sep 2020**
*PT. Bahagia Sejahtera Metalindo* — *West Bandung, West Java*

- **Operated metal fabrication machinery** for precision plate shearing and stamping operations, strictly matching engineering CAD blueprints and tight ISO dimensional tolerance thresholds.
- **Performed in-process Quality Control (QC) dimensional inspections** using vernier calipers to suppress scrap rates and actively enforced 5S workplace standardization protocols.

## FEATURED TECHNICAL PROJECTS

**PayNote & Meracik-Ide — Web & Mobile Applications** — **Jan 2024 – Dec 2024**
*Independent Technical Projects (github.com/Wilhelm-art)* — *Bandung, West Java*

- **PayNote**: Engineered a financial recording web application utilizing MVC architecture, automated multi-category balance computation, and interactive analytical visual charts built with Laravel 10 and MySQL.
- **Meracik-Ide**: Developed a mobile financial calculator (COGS/HPP & Break-Even Point for MSMEs) using React Native/Expo, and designed an interactive portfolio web application achieving **optimal Google Web Vitals scores (95+)**.

## FORMAL EDUCATION

**Bachelor of Computer Science (S.Kom) — Informatics Engineering** — **Jul 2021 – Oct 2025**
*STMIK Mardira Indonesia (GPA: 3.62 / 4.00 — Highly Satisfactory / Magna Cum Laude)* — *Bandung, West Java*

- **Core Academic Focus**: Computer Networking, Network Security, Computer Systems Architecture, Relational Database Management Systems, Software Engineering.

**Vocational High School (SMK) in Machining Engineering** — **Jul 2018 – Jun 2021**
*SMK Mahardhika Batujajar (Average Graduation Exam Score: 81.79 / 100)* — *West Bandung, West Java*

- **Vocational Competencies**: Conventional Lathe Machining, Milling Machine Operation, Surface Grinding, Bench Fitting, Engineering Technical Drawing & Industrial Safety (K3/OHS).

## CERTIFICATIONS & PROFESSIONAL LICENSES

**Google Cybersecurity Professional Certificate — Google / Coursera** — **2026**

- **Verified Skills**: Threat Modeling, Network Vulnerability Identification, Endpoint Security, Incident Detection (SIEM), and Data Security Compliance.

**Vocational Competency Certificate (UKK) in Machining Engineering — PT. Indo Integral Sekawan** — **2021**

- **Official Qualification**: Metal Machining Practical Assessment, ISO Dimensional Precision Measurement, Standard Operating Procedures (SOP), and Manufacturing Workplace Safety (K3).

## TECHNICAL SKILLS & TOOLS

**Software Development:** PHP, Laravel, MySQL, JavaScript, TypeScript, React, Next.js, React Native, RESTful APIs, Git & GitHub.

**IT Support, Networking & Security:** PC Troubleshooting (Hardware/Software), LAN/WAN Networking, TCP/IP, DNS/DHCP, Windows Server/10/11, Linux, Cybersecurity (Google Certified).

**Machining & Plant Operations:** Industrial Boiler Systems Operation, Conventional Lathe & Milling Machines, Quality Control (Vernier Caliper, Micrometer), Manufacturing OHS/K3, 5S Methodology.

**Administration & Computing:** Microsoft Excel (Advanced Formulas & Logsheet Data Recapitulation), Microsoft Word, Google Workspace, Command Prompt / PowerShell.
